The Investment Ambassador

The Investment Ambassador Program strengthens Batam's promotion and business networking through a business-to-business approach. The ambassadors play an active role in bridging communication between business actors, prospective investors, and BP Batam, including following up on complaints directly from entrepreneurs.

Investment Clinic

The Mobile Investment Clinic Program visits industrial estates directly to provide fast solutions to licensing and business development obstacles. Collaboration with Immigration and Customs through the ImmiCare program makes this service more responsive for investors and foreign workers

Investment Dashboard

This dashboard serves as the digital face of Batam's investment transparency and enables businesses to report issues, monitor BP Batam's responses in real time, and ensure accountability in handling investment-related matters across all industrial areas. This dashboard is highly beneficial for investors

SCAN ME

Batam Talent Management (MANTAB)

<https://mantab.go.id/>

This activity is carried out to strengthen the link and match between industry and vocational education across regions. It focuses on the manufacturing, oil & gas, processing, and shipyard sectors. The program prepares skilled workers according to the specific needs of industry in the KPBPB Batam area
